### About Me

I am a results-driven professional with experience in web development, technical support, and networking. In my first role, I gained practical skills in building and maintaining websites, as well as troubleshooting and providing support. I also assisted in managing network infrastructure, ensuring smooth system performance and connectivity. I enjoy problem-solving and collaborating with teams to improve both user experiences and IT systems. I'm committed to continuous learning and eager to grow further in both web development and IT support.

### Professional Experience

#### Koufu Printing Corp | Web Developer / MIS

*July 2024 - Present*

Key responsibilities:

- Spearheaded the creation of dynamic, responsive, and interactive company websites using HTML, CSS, JavaScript, and basic server-side scripting (e.g., PHP).
- Developed and maintained company websites to streamline business operations, improving efficiency and user experience.
- Provided technical support, troubleshooting hardware, software, and network-related issues, ensuring minimal downtime and maximum productivity.
- Managed local area network (LAN) infrastructure, including router and switch configuration, IP addressing, and network diagnostics to ensure optimal performance and connectivity.
- Documented troubleshooting steps, resolutions, and system configurations for future reference and knowledge sharing.

#### Highly Succeed Inc. | Intern as Database Programmer

*August 2022 - October 2022*

Key responsibilities:

- Assist with Database Maintenance
- Basic Query Writing
- Contributed to creating and updating documentation related to database configurations, procedures, and troubleshooting steps.
- Database Backups: participated in database backup procedures and data recovery processes.
- Data Entry and Verification: Input and validate data in the database to ensure accuracy and integrity.
